

FOREX TRADING JOURNAL

How to use GenG Edge

GenG Edge is a diary for your trades. You write down each trade, or it comes in by itself from MetaTrader 5. GenG Edge then does the maths, shows you what's working, and warns you before you break your own limits. This guide shows every screen, step by step.

The home screen (dashboard) of a demo account after 10 weeks of trading.

1. Track

Save every trade in seconds, or let MT5 send them for you.

2. Understand

See which pairs, times and habits make or lose you money.

3. Improve

Set rules, goals and limits, and practise on past prices.

See GenG Edge in 5 minutes

Follow these five steps to learn the basics, or to show GenG Edge to someone else.

STEP 1

Add a trade

Press **N**. Type the pair, prices and size. The profit shows up before you save.

STEP 2

Open it

Click the trade. It gets a grade from A to F for how well you traded, win or lose.

STEP 3

Check your dashboard

See your profit, how often you win, and your best day and pair.

STEP 4

Look at the news

Open Market news and tap an event to see what it means for your pairs.

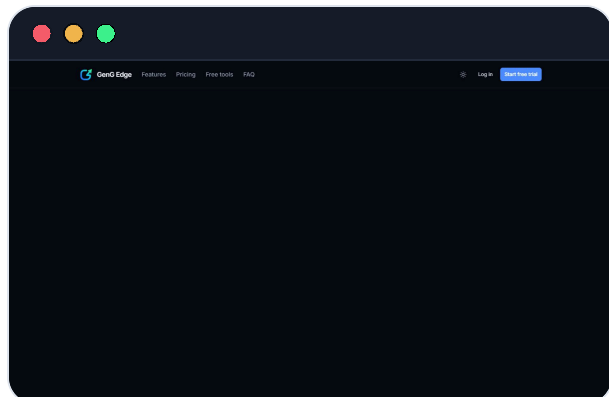

STEP 5

Share a trade

Press Share on a trade to get a picture and a link you can post.

Getting started

It takes about five minutes.

Sign up with your name, email and a password.

1 Create your account.

You get every feature free for 30 days. No card needed. After that, the free version keeps working and your trades are never deleted.

2 Confirm your email.

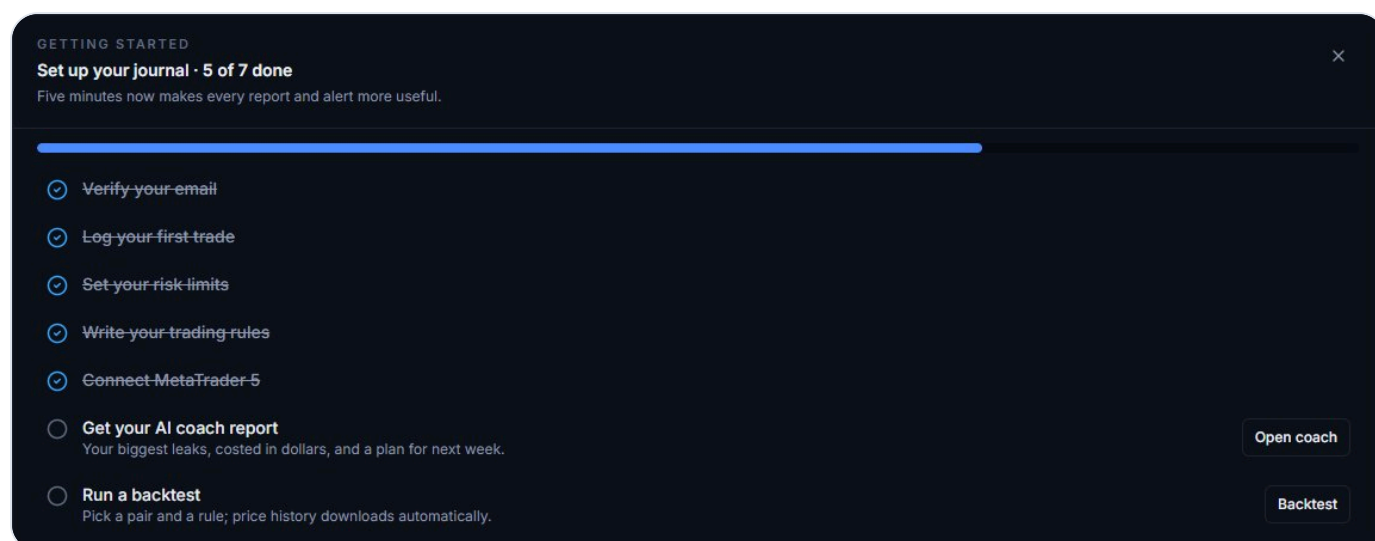

Click the link we send you. Didn't get it? Press *Resend link* in the app.

3 Set your starting balance.

Go to Settings → Accounts. Give your account a name and enter how much money it started with. Your returns and limits are worked out from this number.

4 Follow the checklist.

The *Getting started* box on the home screen ticks itself off as you go.

The checklist: confirm your email, add your first trade, set your loss limits, write your trading rules, and connect MetaTrader 5. Close it any time with x.

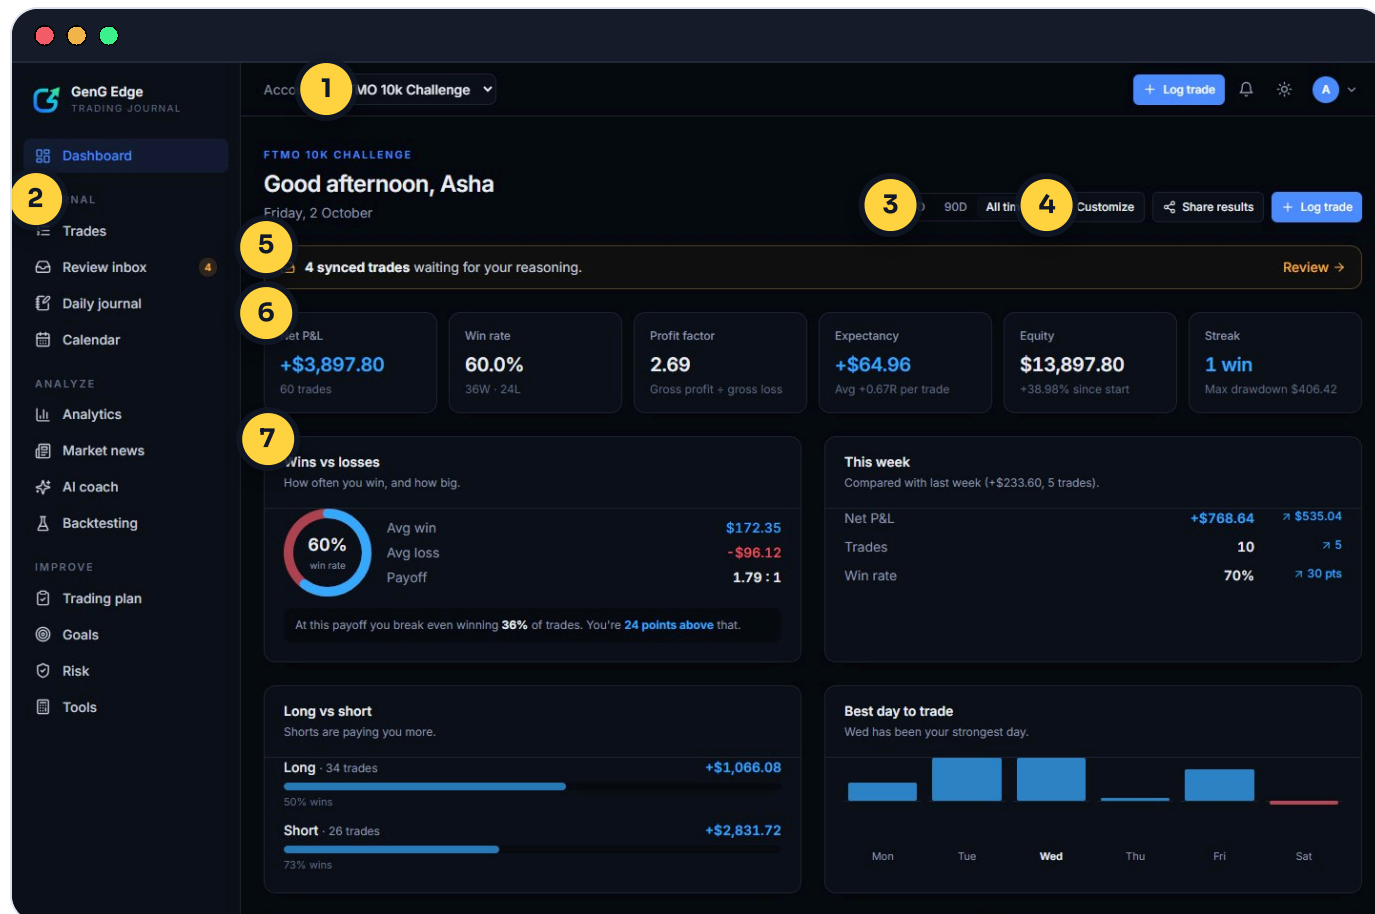

Handy keys

PRESS	TO
N	Add a trade, from any page
Ctrl + Enter	Save the trade
Ctrl + S	Save your daily journal
→ Space	In practice mode (backtesting): show the next candle, or play and pause

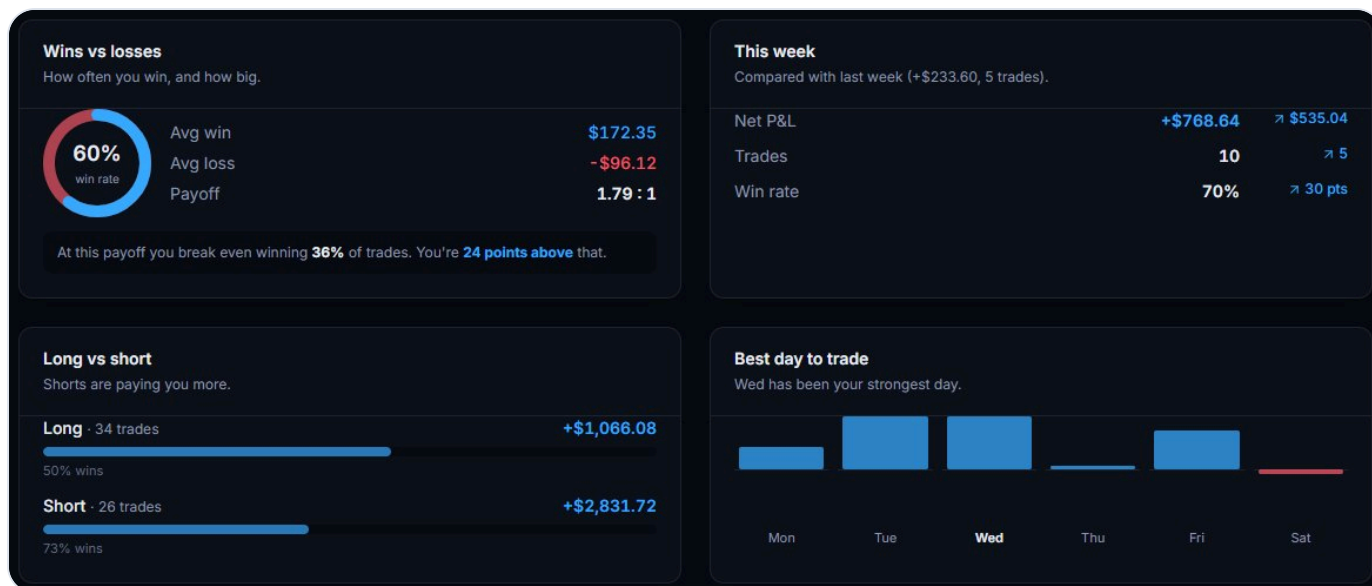

GOOD TO KNOW All trading amounts are in US dollars. Plan prices are in Indian rupees. If you have more than one account, pick it at the top of the screen and every page switches to it.

Your home screen

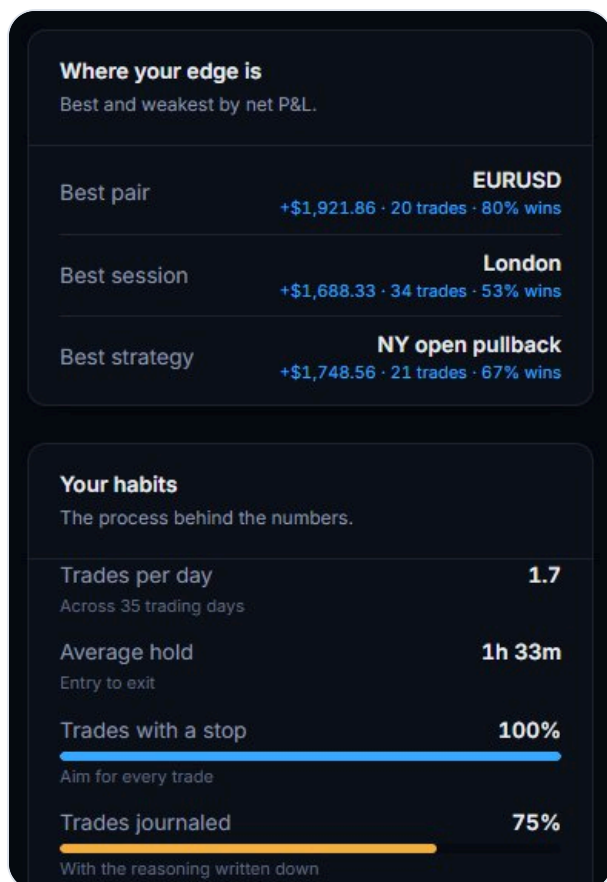

The dashboard answers one question: how am I doing?

- 1 Your account.** Pick which account you're looking at.
- 2 Menu.** All the pages, in three groups: Journal, Analyze and Improve.
- 3 Time range.** Show the last 30 days, 90 days, or everything.
- 4 Customize** lets you hide boxes you don't need. **Share results** makes a picture of your week or month.
- 5 Trades to review.** Trades that came in from MT5 and are waiting for your notes.
- 6 Your main numbers:** total profit, how often you win, profit factor, average profit per trade, account balance and your current streak.
- 7 At a glance:** four simple boxes, shown below.

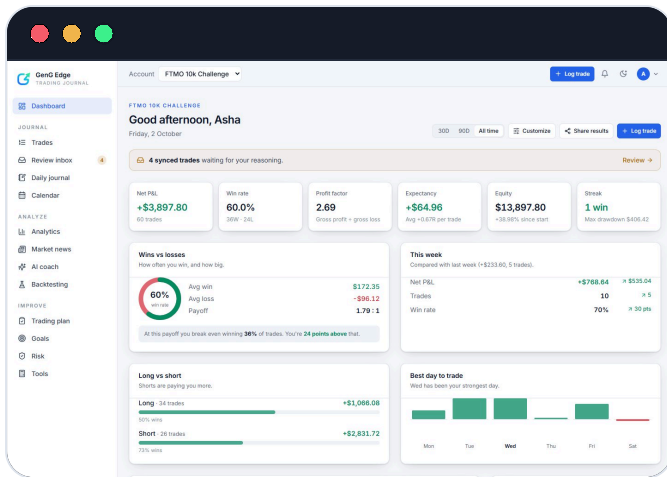

Wins vs losses: how often you win, your average win and loss, and the win rate you need just to break even. **This week:** compared with last week. **Long vs short:** whether buying or selling works better for you. **Best day to trade:** your profit for each weekday.

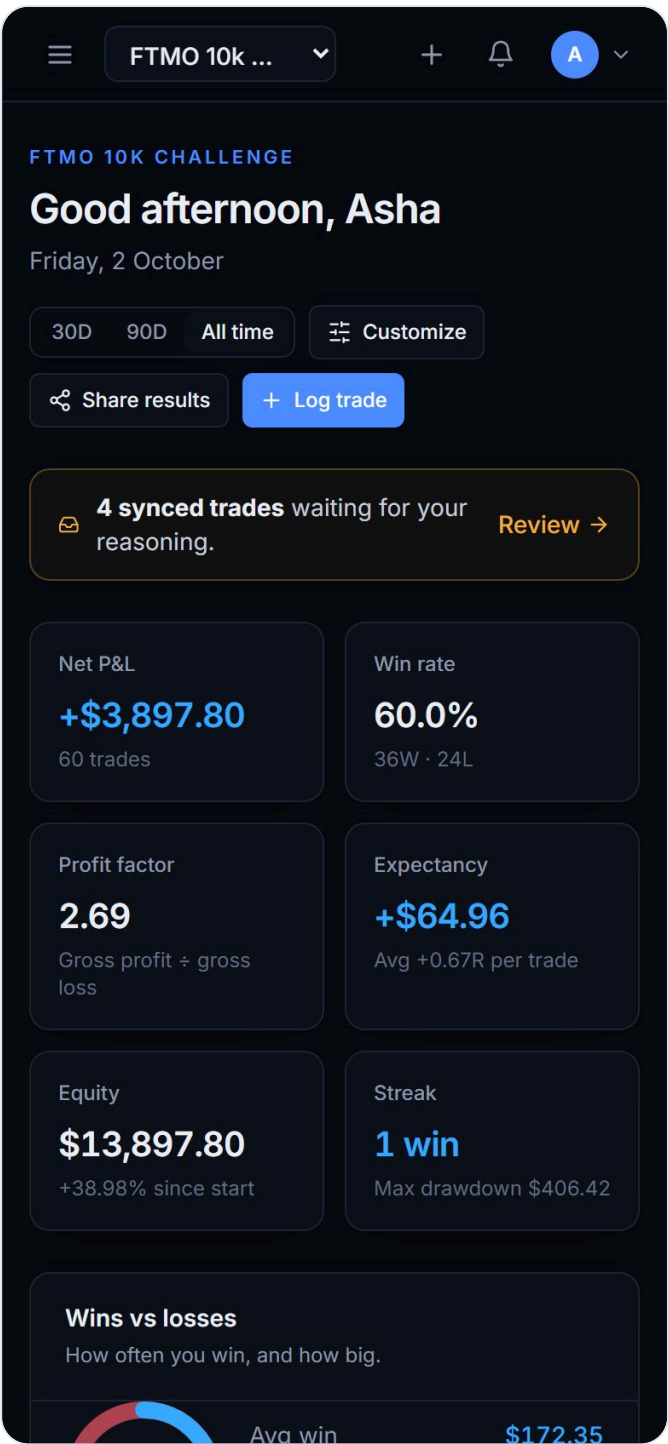

Where you do best, and your habits

- **Where your edge is:** your best pair, best time of day (session) and best strategy, and the pair that loses you the most.
- **Your habits:** how many trades you take a day, how long you hold them, how often you use a stop loss, and how often you write notes. Green bars mean you're doing it most of the time.
- Further down: your balance over time, your loss limits, a calendar of daily profit, recent trades, your goals and upcoming news.

TIP Hid a box by mistake? Settings → Preferences → *Show all* brings it back.

Like a bright screen? Press the sun/moon button at the top. Profit shows in blue on dark and green on light.

It works on your phone too. See Chapter 15 to install it like an app.

Adding a trade

Press **Log trade**, or **N**. Only the top part is required. The rest is mostly one tap each, and it makes your reports much smarter.

Log a trade
ETMO 10k Challenge - all amounts in US dollars

1 **TRADE**

Pair	Direction	Entry price	Exit price
EURUSD	Long / Buy	1.16420	1.16630

Size (lots): 0.50
Entry date: 02-10-2026
Entry time: 13:11
Exit date: 02-10-2026
Exit time: 14:11

2 **NO COSTS**

Stop loss	Take profit	Commission (\$)	Swap (\$)
1.16220	1.16820	3.50	0.00

3 **INSTANT RESULT**

Gross P/L	Fees & swap	Net P/L	Result in B
\$105.00	-\$3.50 / \$0.00	\$101.50	+1.01R of \$100.00 Planned 1: 2.00

4 **WHY DID YOU TAKE IT?**

Strategy: London breakout
What did you see? Asian range was 24 pips. Clean M15 close above the range, entered on the retest with the stop below it.

5 **WHEN WAS IT?**

Session: Picked from the entry time
Asian, London, New York, London + NY overlap
Chart timeframe: M1, M5, M15, M30, H1, H4, D1, W1

6 **HOW DID YOU FEEL?**

Feelings: Calm, Confident, Focused, Patient, Tired, Hesitant, Anxious, Fearful, Greedy, Frustrated, Impatient, Overconfident, Bored

7 **HOW SURE WERE YOU?**

How sure were you? Not at all, Very sure
Did you stick to your plan? Not at all, Fully

8 **DETAILS**

Setup, market, lesson, tags

9 **YOUR RULES**

Rule	Kept	Broke
Only trade my A+ setups from the playbook	Kept	Broke
Stop loss placed before entry, never widened	Kept	Broke
Stop after two losses in a day	Kept	Broke
Risk 1% or less per trade	Kept	Broke
No trades 15 minutes before high-impact news	Kept	Broke

10 **SCREENSHOTS**

Add chart screenshots PNG, JPEG or WebP up to 2 MB

Ctrl + Enter to save

- 1 The trade.** The pair (for example EURUSD), buy or sell, the price you got in and out at, the size in lots, and the times.
- 2 Stop loss and take profit (optional).** Add a stop loss and GenG Edge can measure your risk. Commission is what your broker charged; swap is the overnight fee.
- 3 Instant result.** Your profit or loss, after costs, before you even save.
- 4 Why did you take it?** Tap a strategy and write one or two sentences about what you saw.
- 5 When was it?** The session (Asian, London or New York) is filled in from the time. Tap the chart timeframe you used.
- 6 How did you feel?** Tap one feeling. Feeling tired, angry or greedy lowers the trade's grade, because those moods often lead to mistakes.
- 7 Two quick taps:** how sure you were, and whether you followed your plan.
- 8 More details:** setup, market type, lesson and tags. Hidden until you open it.
- 9 Your rules** **Premium** Mark each rule as kept or broken. GenG Edge then shows what breaking each rule costs you.
- 10 Save trade,** or **Ctrl + Enter**. You can also add chart pictures.

PAIRS LIKE EURGBP For pairs without US dollars in them (for example EURGBP or GBPJPY), the form asks for one extra exchange rate so the profit in dollars is exact. If you skip it, the profit is an estimate and shows a $\approx$ sign.

SAVE TIME The form remembers your last pair, size, strategy and commission. To log a similar trade, open an old one and press **Duplicate**.

Your trades and their grades

Click any trade to see all its details. Every trade gets a grade from A to F. The grade is about *how* you traded, not whether you won.

EURUSD · Long 9 Sept 2026, 06:44 pm

+\$246.50

Win +2.46R #A+ setup

1 **A** **Process grade · 100/100**
Textbook execution: every measurable part of the process was on plan.
Grades how the trade was taken, not whether it made money.

- Stop loss set. The trade had a stop, so the risk was defined before entry.
- Risk within plan. Risked 0.87% of the balance, against your plan of 1%.
- Loss kept to the stop. Never lost more than planned.
- Let the winner run. Closed at 2.46R of a planned 2.50R.
- Followed the trading plan. All 5 checked rules kept.
- Reasoning written down. The why behind the trade is on record.
- Trading state. Traded while patient.

2 Ask the coach about this trade

3

Gross P&L	\$250.00
Commission	-\$3.50
Swap	—
Money at risk	\$100.00
Planned reward : risk	2.50 : 1

Entry **1.17091** Exit **1.17591**

Size **0.5 lots** Held **2h 34m**

Stop loss **1.16891** Take profit **1.17591**

Opened **9 Sept 2026, 04:10 pm**

Closed **9 Sept 2026, 06:44 pm**

Session **London**

Delete Share Duplicate Edit trade

- 1** The **grade** and the checks behind it: Did you use a stop loss? Did you risk the right amount? Did you get out at your stop? Did you let your winner run? Did you follow your rules? Did you write down why? Were you in a good mood?
- 2** Ask the coach about this trade **Premium** gives you a short written review.
- 3** The **numbers**: profit, costs, how much you risked, and how much you aimed to make.
- 4** Share the trade as a picture and a link (Chapter 8).
- 5** Edit, Duplicate or Delete the trade.

WHY GRADES MATTER A loss where you followed your plan can still get an A. A lucky win with no stop loss can get an F. Good habits are what make money over time.

Trades: every trade in one list. Filter by buy or sell, win or loss, session, strategy, tag or date. The bar on top sums up the trades you're looking at. **Export CSV** (Premium) downloads them to Excel.

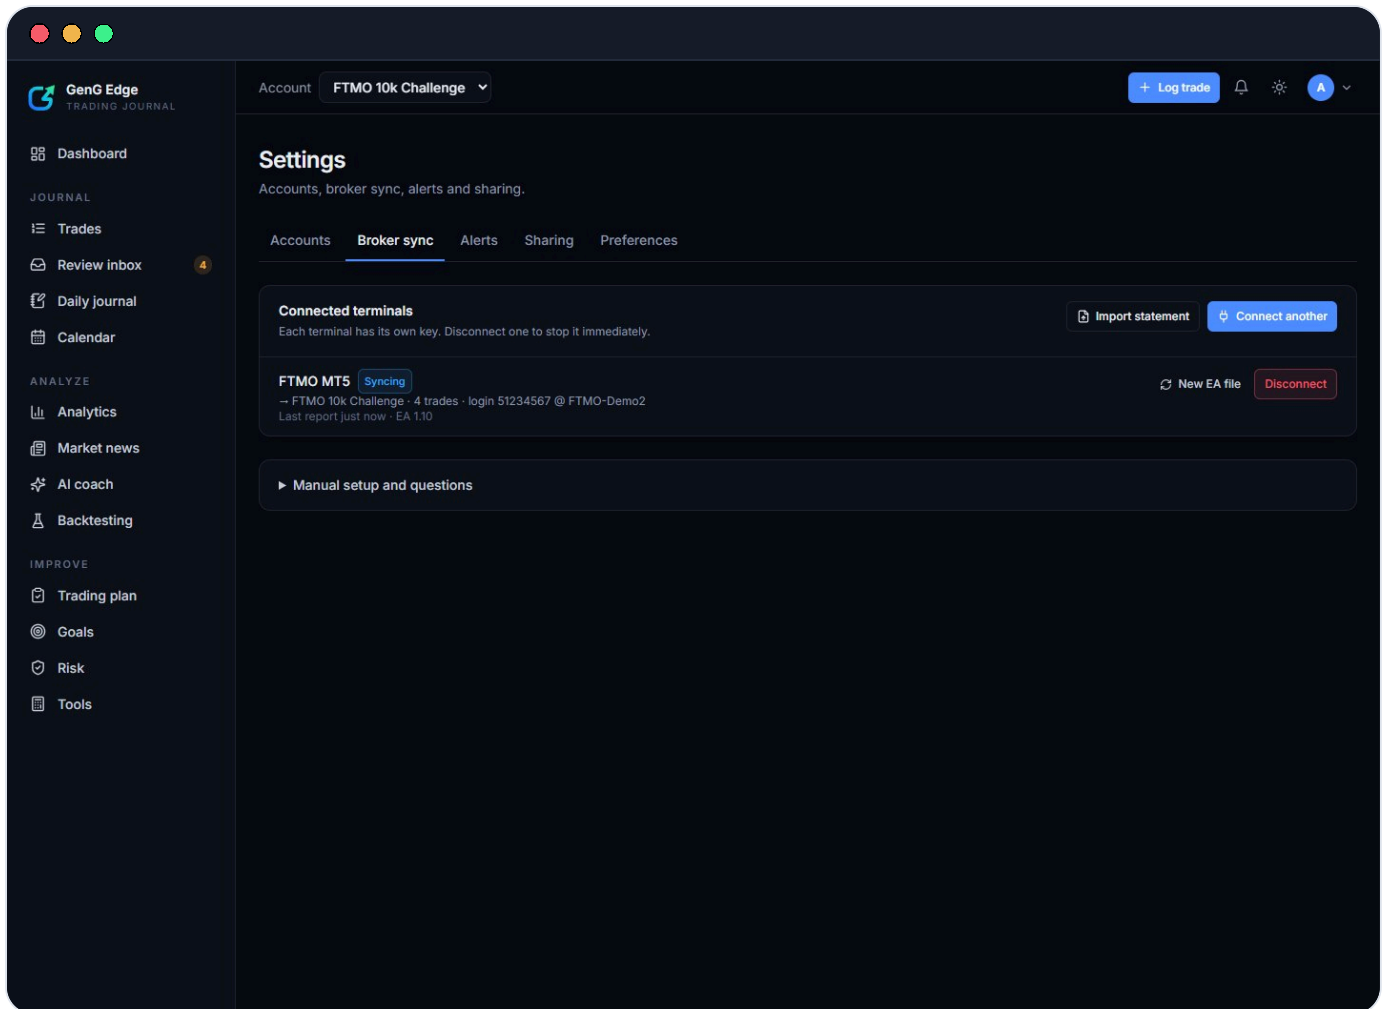

Connect MetaTrader 5 Premium

Connect once, and every trade you close in MT5 appears in GenG Edge by itself, with the exact profit and fees from your broker. It takes about two minutes.

Go to Settings → Broker sync → **Connect MetaTrader 5**.

- 1 **Download your file.**
Pick your account and press *Download my EA file*. (An EA is a small add-on for MT5.) Your private key is already inside it.
- 2 **Copy it into MT5.**
In MT5, click File → Open Data Folder → MQL5 → Experts, and put the file there.
- 3 **Allow GenG Edge.**
In MT5, open Tools → Options → Expert Advisors. Tick *Allow WebRequest for listed URL* and paste the address shown on the GenG Edge page.
- 4 **Turn it on.**
In the Navigator panel, right-click Expert Advisors → Refresh. Drag *GenGEdgeSync* onto any chart and press OK. Make sure the *Algo Trading* button is on. GenG Edge shows *Connected* within a minute.

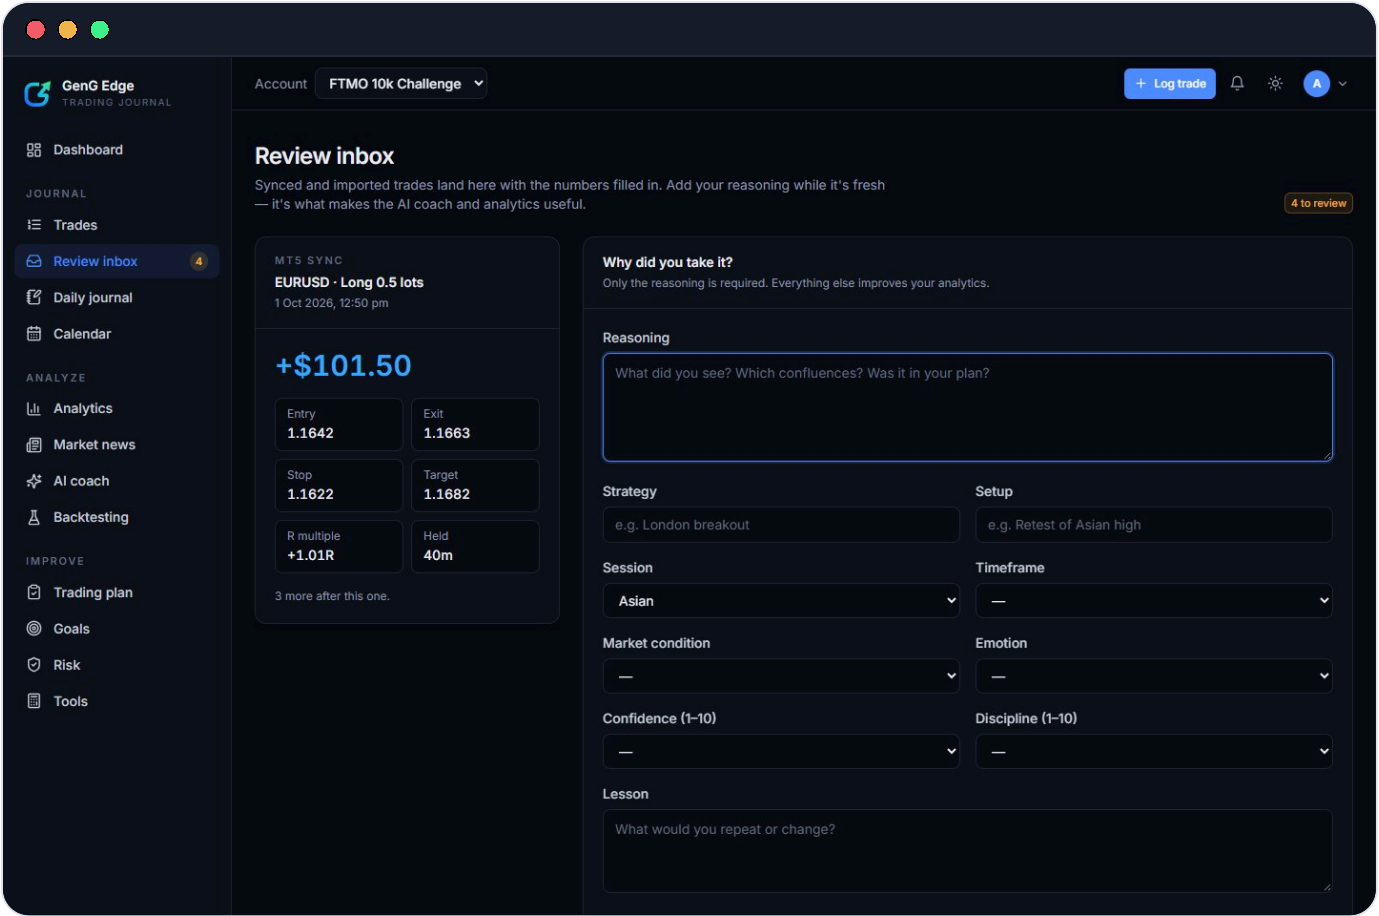

When it's working, you see **Syncing**, your login and the last time it sent trades. Lost the file? Press **New EA file**. Want to stop? Press **Disconnect**.

- New trades arrive every few minutes while MT5 is open. Trades you closed while MT5 was off arrive the next time you open it.
- The same trade is never added twice.
- Trades that came straight from MT5 get a **verified** badge. If you change their prices or size, the badge goes away. Notes don't affect it.
- The add-on can't place trades and never sees your password.
- Want older trades too? Use **Import statement** with a report from MT5.

Review inbox Premium

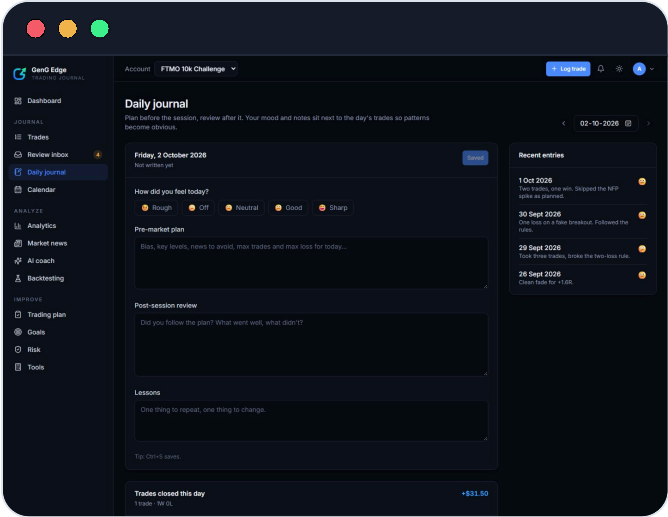

Trades from MT5 wait here for the one thing your broker can't send: why you took them.

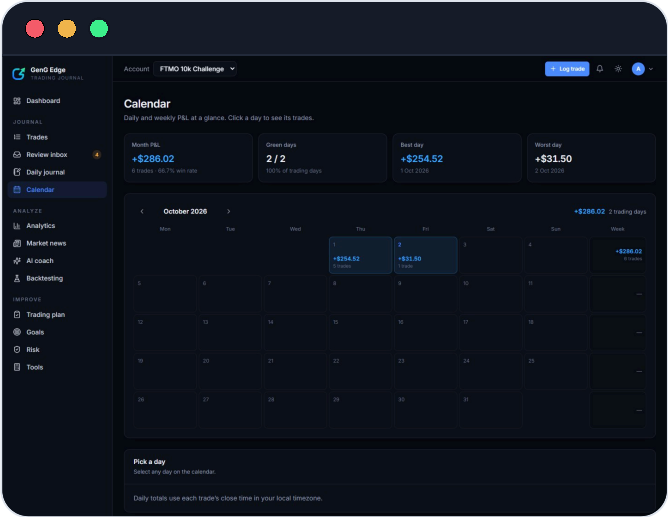

Write a sentence about why you took each trade. Everything else is optional. Press **Save & next** to move on, or **Skip for now** to come back later.

Daily journal and calendar

Plan your day before you trade, and look back on it afterwards.

Daily journal: your mood, your plan for the day, how it went, and what you learned. That day's trades are listed below.

Calendar: each day is coloured by profit or loss, with totals for every week. Click a day to see its trades.

Share your results Free

Turn a trade, a week or a month into a picture for WhatsApp, Instagram, X or LinkedIn, with a link anyone can open to check it's real.

Share this trade
An image for social media, with a link anyone can open to check the numbers.

1 Preview of your picture. Choose a wide or square shape, and a dark or light style.

2 The trade on a mini chart: where you got in, your stop, your target, and where you got out.

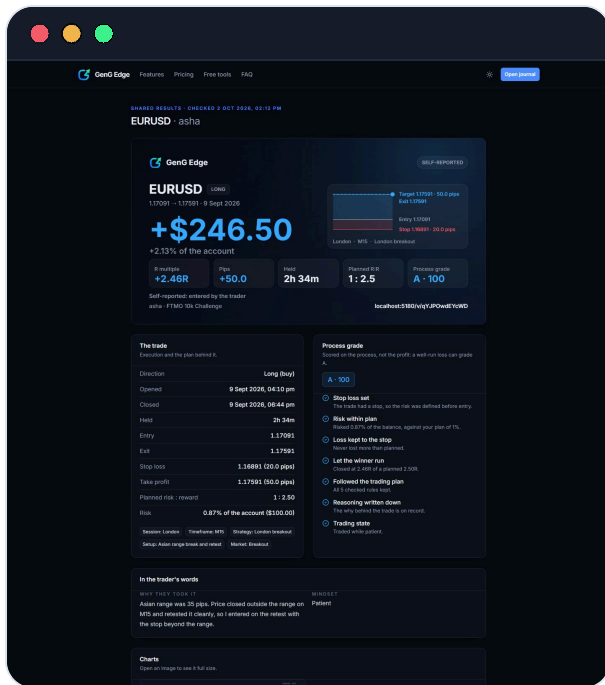

3 What to include: your plan and grade are on by default. Your notes and chart pictures are only shown if you switch them on.

4 Hide dollar amounts to show only percentages, or hide your name to stay anonymous.

5 Download image, Share..., Copy link

- 1** **Preview** of your picture. Choose a wide or square shape, and a dark or light style.
- 2** **The trade on a mini chart:** where you got in, your stop, your target, and where you got out.
- 3** **What to include:** your plan and grade are on by default. Your notes and chart pictures are only shown if you switch them on.

"Verified" or "self-reported"?

Trades that came straight from MT5, unchanged, show a **Verified · MT5** badge. Trades you typed in yourself show **Self-reported**. The link checks this again every time someone opens it.

MENTORS

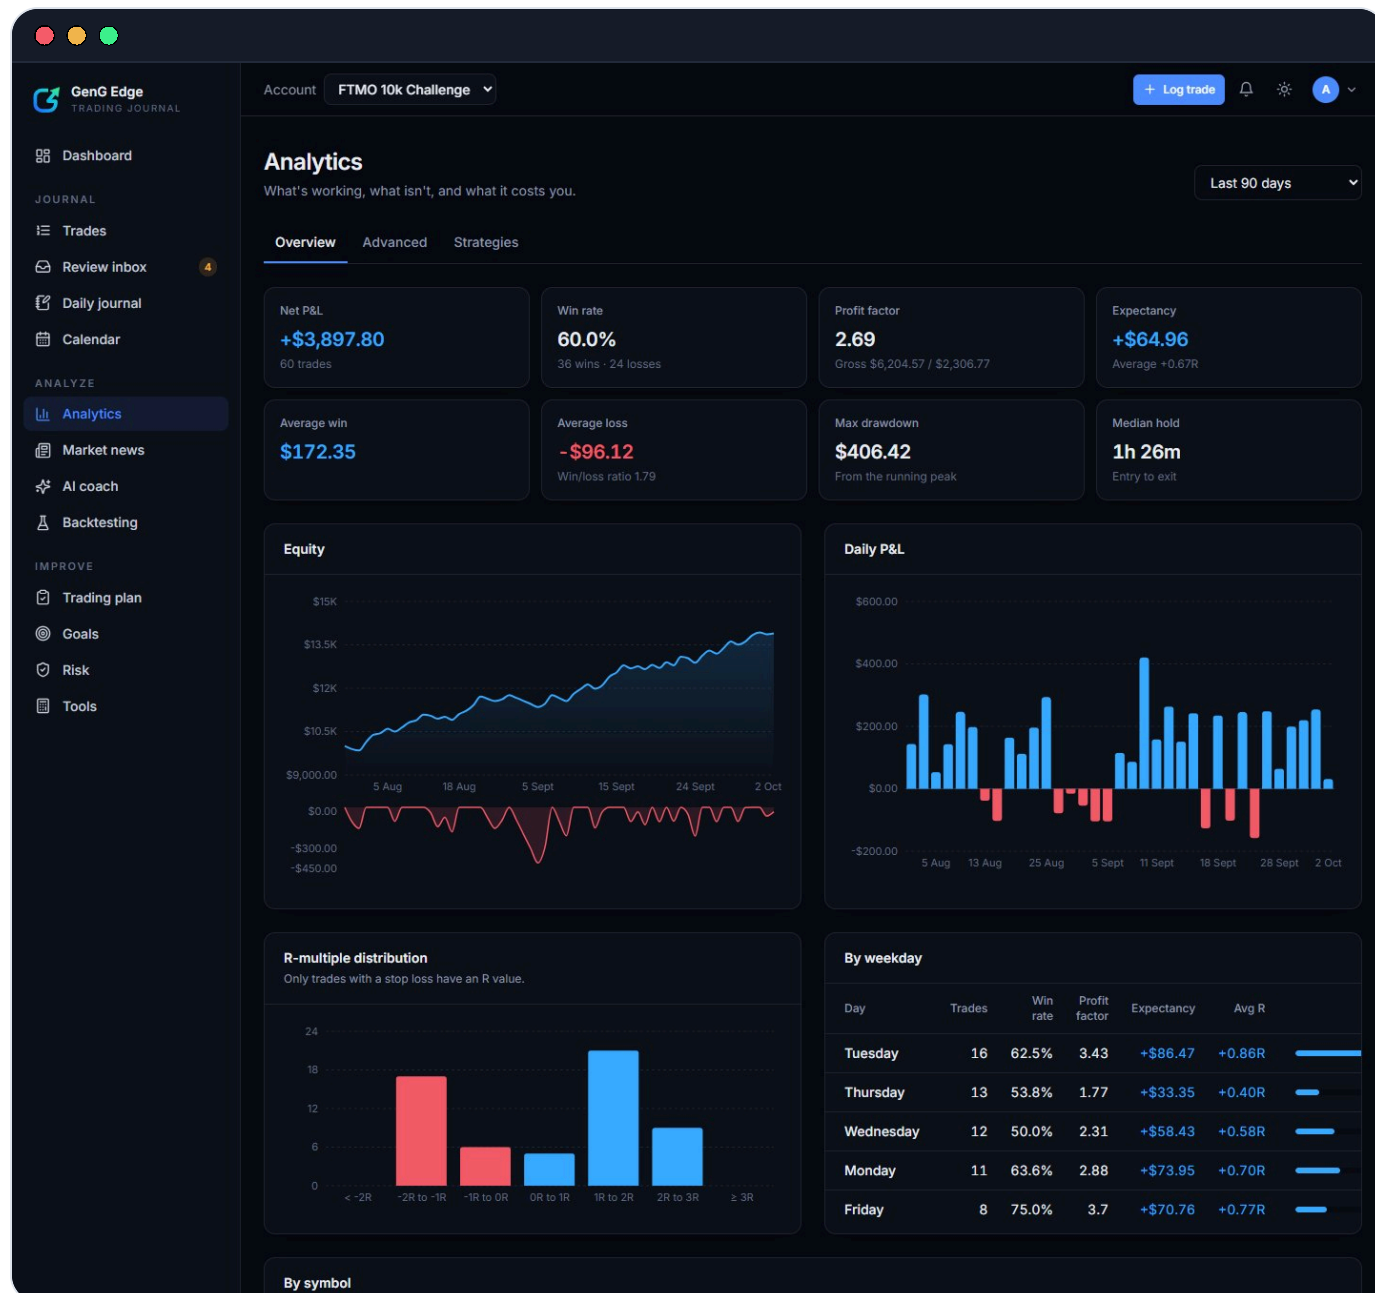

Premium

Want a coach or mentor to see your account? Settings → Sharing → **Mentor links** gives them a read-only link. You can switch it off any time.

What people see when they open your link.

Analytics

Charts and tables that show what's working, what isn't, and what it costs you.

Overview (free): your balance over time, profit for each day, how big your wins and losses usually are, and results by weekday, pair, session and buy/sell.

Advanced Premium

- Scores from 0 to 100 for discipline, risk, consistency and edge.
- Results by hour of the day, how long you held, setup, mood and more.
- Which trades are missing a stop loss or notes.

Bad habits it spots, and what they cost

- Revenge trading: a bigger trade right after a loss
- Too many trades in one day
- Losing more than you planned to
- Closing winners too early

- Trading without a stop loss

SMALL SAMPLES A result based on fewer than 5 trades is marked *small sample*. Treat it as a hint, not a fact.

AI coach Premium

A written review of your trading, based only on your own trades. It tells you what you're doing well and what to fix. It never tells you what to buy or sell.

AI coach

A written review of your trading, grounded in your own numbers.

Built-in coachLast 30 days

Built-in analysisLast 30 days · generated 2 Oct 2026, 02:23 pm

A profitable period: \$2,138.78 over 37 trades.

Win rate 56.8%, expectancy \$57.80 per trade, average 0.6R. Maximum drawdown was \$406.42.

Net P&L	Trades	Win rate	Expectancy
+\$2,138.78	37	56.8%	+\$57.80

AI writing is switched off on this server. This review was written by GenG Edge's built-in analysis from the same numbers.

92Overall

Average of the four scores.

97Discipline

Stops on every trade; no revenge trading, overtrading, oversized losses or trading past the daily limit.

89Risk

Stop usage, consistent money at risk and drawdown health (20% drawdown scores zero).

83Consistency

Share of green days and how much profit depends on one best day.

100Edge

Profit factor (2.0+ is full marks) and average R.

What's working

EURUSD is your best market

12 trades, 75.0% win rate, \$1,084.27 net.

The London session works for you

\$797.33 over 17 trades.

Winners pay for losers

Profit factor 2.3: \$3,790.10 won against \$1,651.32 lost.

Leaks to fix

Losses bigger than planned

1 trade, -\$158.12 net.

Fix: Place the stop with the order and never widen it.

Cutting winners early

1 trade, \$69.96 net.

Fix: Let winners run to at least half the planned target before managing them.

Your action plan

Tick them off as you build the habits.

Place the stop with the order and never widen it.

Let winners run to at least half the planned target before managing them.

Review your five biggest losses this weekend.

Behaviour patterns

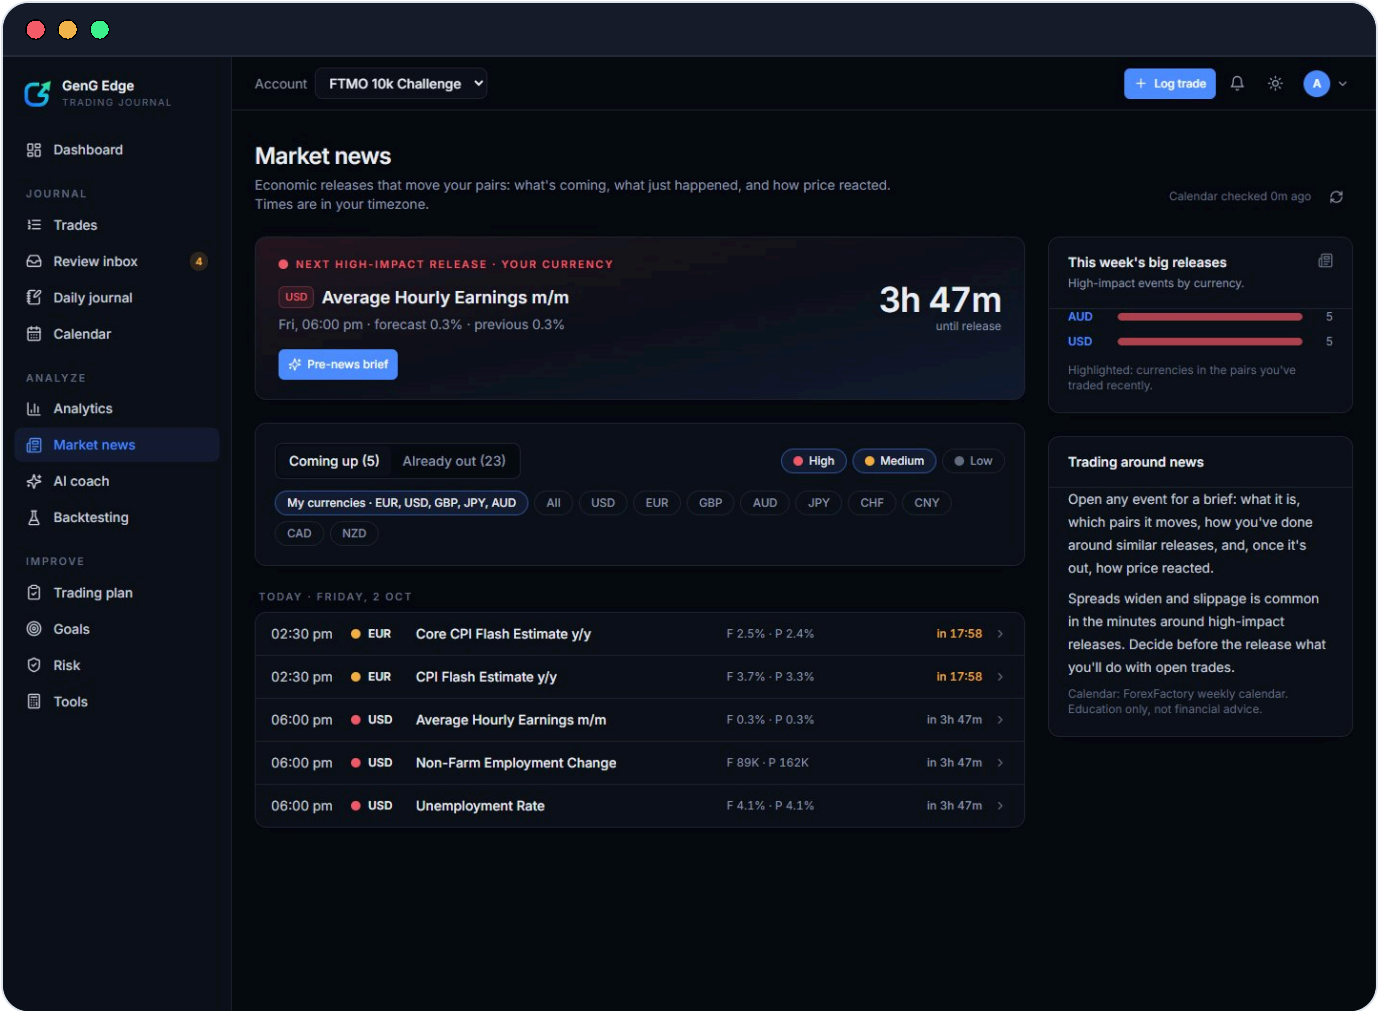

Measured directly from your trade log.

3 Ask a question
A report for the last 30 days: a summary, five scores, what's working, problems to fix (with how much each one cost), and a to-do list. Try "What is my biggest mistake?", "Which session should I avoid?" or "Give me a plan for next week".

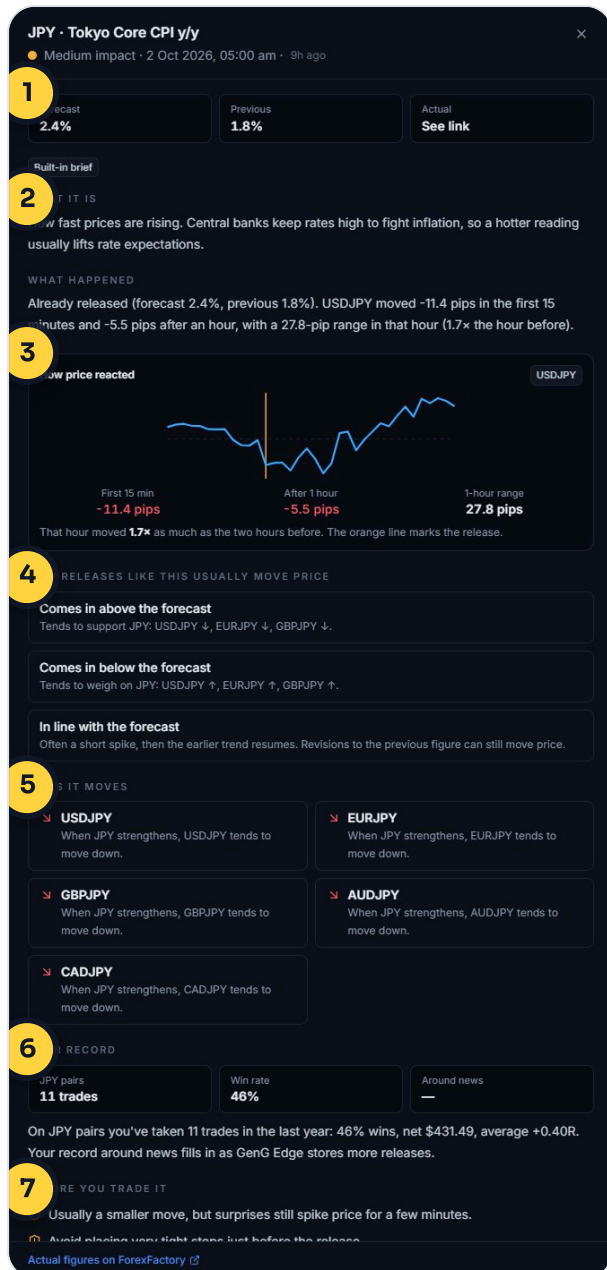

GOOD TO KNOW You get 50 AI answers a month. If you run out, or the AI is busy, GenG Edge's built-in coach answers from the same numbers, free. **Month by month**, under the coach, shows whether your scores are getting better.

Market news

Big economic news (like interest-rate decisions or job numbers) can move prices fast. This page shows what's coming, what just happened, and what it means for your pairs.

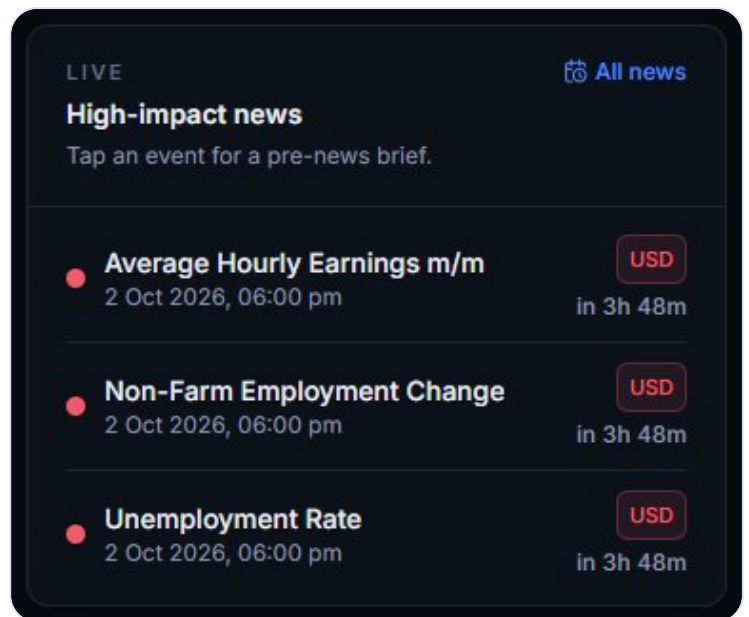

A countdown to the next big release. Switch between **Coming up** and **Already out**, and choose how important (red is high) or which currencies to show. F means forecast and P means previous.

Tap any event to open its brief:

- 1 The numbers:** what was expected and the last result. For the actual result, tap the ForexFactory link.
- 2 What it is,** in plain words.
- 3 How price moved** after it came out, on a small chart.
- 4 What usually happens** if the number is higher or lower than expected.
- 5 Which pairs it moves,** and which way.
- 6 How you've done** when trading this currency.
- 7 Safety tips** for trading around the news.

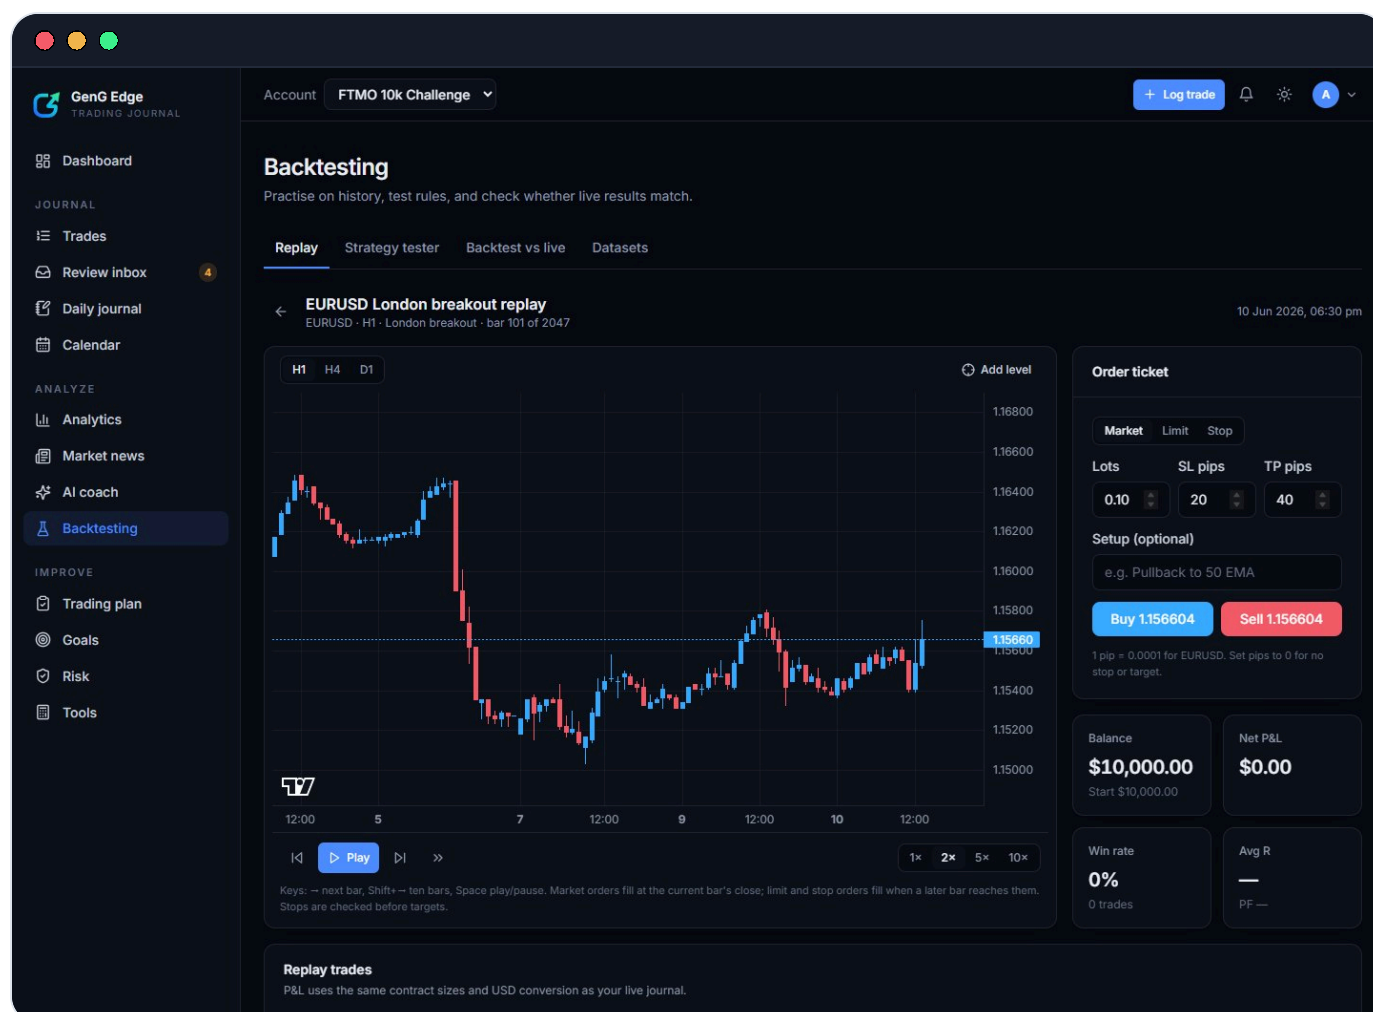

The same countdowns appear on your home screen.

PREMIUM Ask the AI coach for a fuller, written brief. This is learning material, not trading advice.

Practise on past prices (backtesting) Premium

Trade old charts as if they were live, without risking money. It's the safest way to test an idea.

The chart shows one candle at a time, so you can't peek at the future. Buy or sell from the box on the right; your practice balance updates as you go.

Replay: practise by hand

- 1 **Press New session**
Pick a pair, a timeframe and a starting balance. Prices download by themselves.
- 2 **Press Play**
Or press  to show one candle at a time.
- 3 **Place trades**
Set your size, stop and target in pips, then press Buy or Sell.

Strategy tester: let it run for you

- Choose a simple rule (like moving-average crossovers), and GenG Edge tests it over years of prices in seconds.
- It also checks the result on data it didn't use, to warn you if a strategy only looked good by luck.
- **Backtest vs live** compares your practice results with your real trades.

Your rules and goals

Premium

Write down your trading rules once. Tick them on each trade. GenG Edge shows you what breaking each rule really costs.

A

Trading plan

Write your rules once, check them on every trade, and see in dollars what discipline is worth.

Rules

Playbooks

Your rules

Tick these on every trade (in the trade form or the review inbox). Inactive rules stay in history but aren't asked.

e.g. Only trade A+ setups during London

Entry

+ Add

Only trade my A+ setups from the playbook

Entry

Risk 1% or less per trade

Risk

Stop loss placed before entry, never widened

Risk

No trades 15 minutes before high-impact news

Entry

Stop after two losses in a day

Psychology

Plan adherence

Trades with at least one rule ticked.

85%

of checked trades followed every rule48 checked - 12 not

Every rule followed

+\$3,331.63

41 trades - 63.4% win rate - +\$81.26 / trade

Any rule broken

+\$211.64

7 trades - 42.9% win rate - +\$30.23 / trade

Breaking a rule changes your expectancy by
-\$51.03 per trade.

What each rule is worth

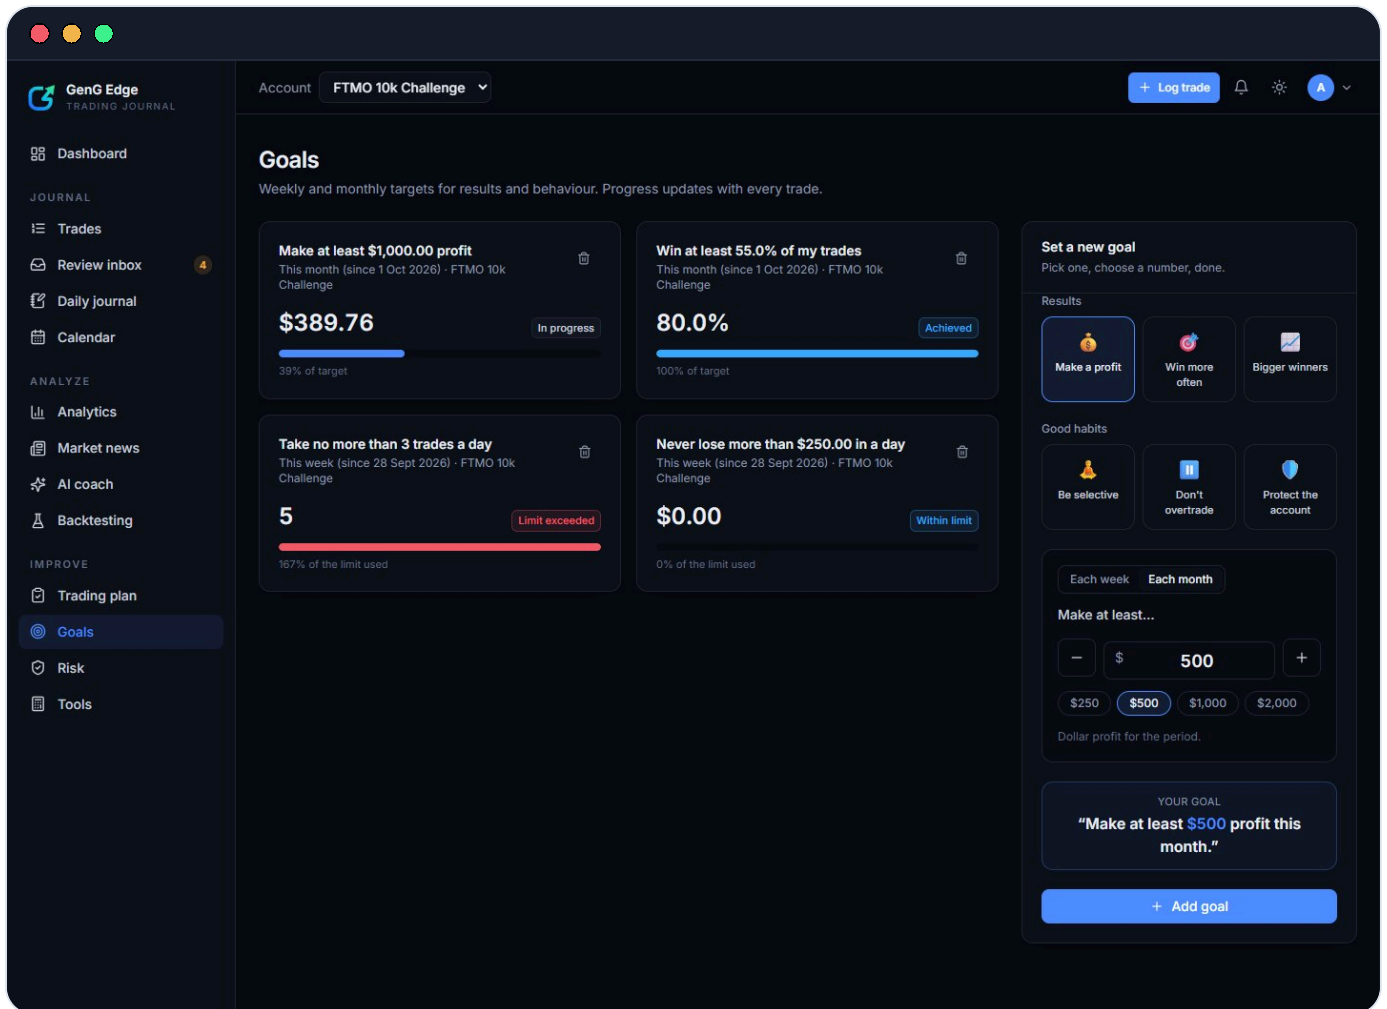

Net result of trades where you kept vs broke each rule. Rules that cost the most when broken are listed first.

Rule	Kept	Broken	Cost of breaking
No trades 15 minutes before high-impact news	+\$3,543.27 48 trades	\$0.00 0 trades	—
Stop after two losses in a day	+\$3,543.27 48 trades	\$0.00 0 trades	—
Stop loss placed before entry, never widened	+\$3,374.76 44 trades	+\$168.51 4 trades	-\$34.57 / trade
Risk 1% or less per trade	+\$3,274.18 44 trades	+\$269.09 4 trades	-\$7.14 / trade

Rules (for example "Risk 1% or less per trade"), how often you follow them, and **playbooks**: one page for each of your setups.

GenG Edge user guide

Page 26 of 35

Goals fill up with every trade you add.

1 Pick a goal

Make a profit, win more often, have bigger winners, take fewer trades, don't overtrade, or protect your account.

2 Choose the number

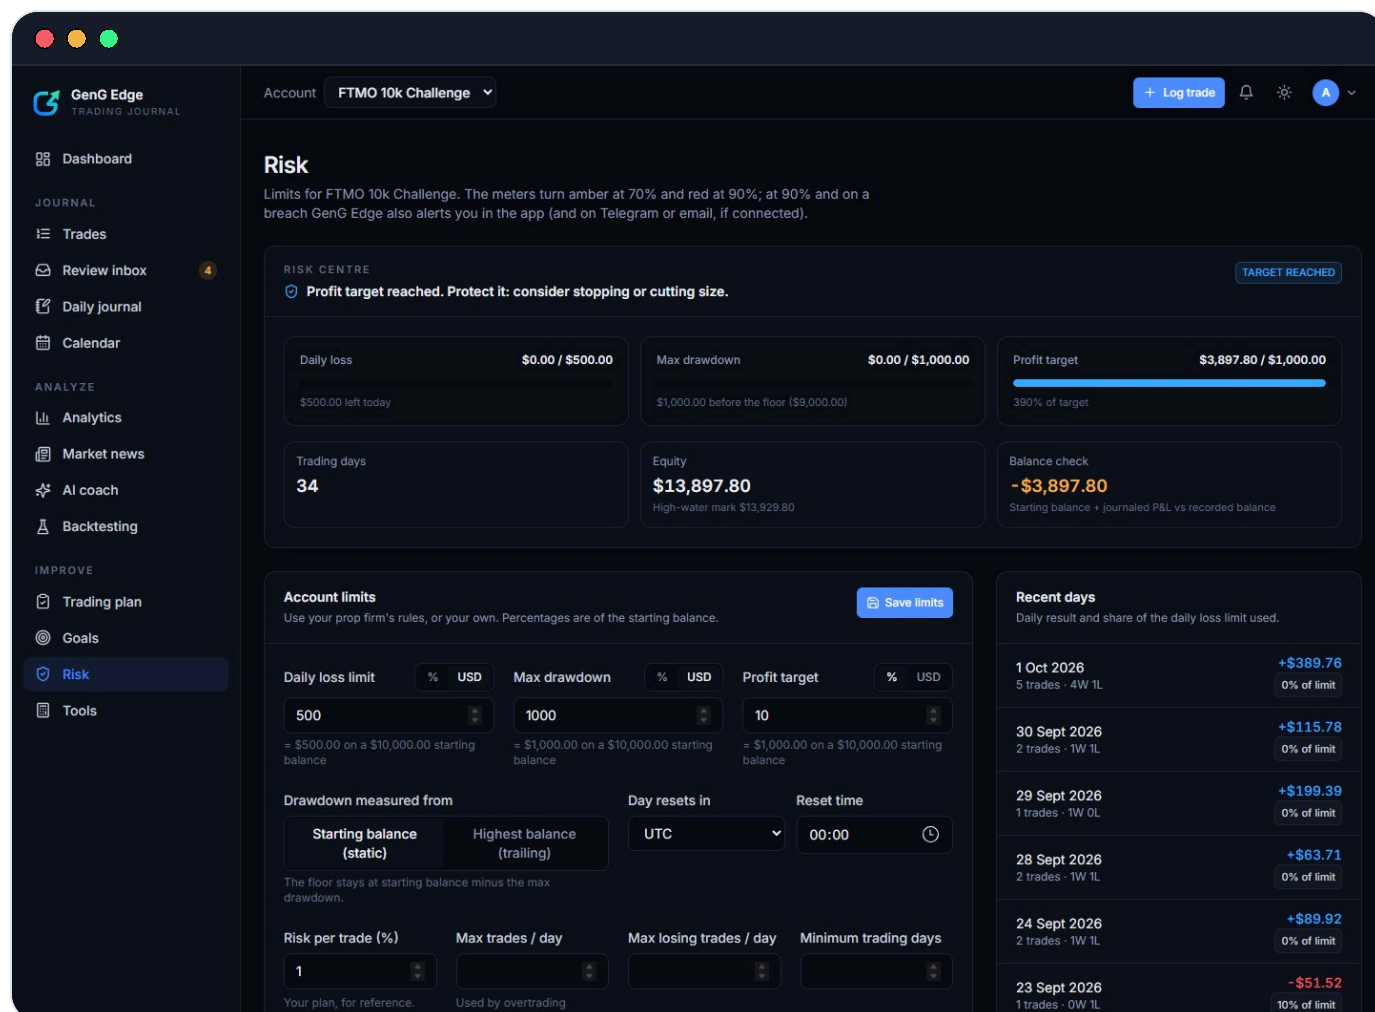

Weekly or monthly. Use – and +, or tap a common number.

3 Add it

Check the sentence, like "Win at least 55% of my trades this month", and press *Add goal*.

Loss limits (Risk)

Set the most you're allowed to lose in a day, and in total. GenG Edge warns you before you get there. Perfect for prop-firm challenges like FTMO.

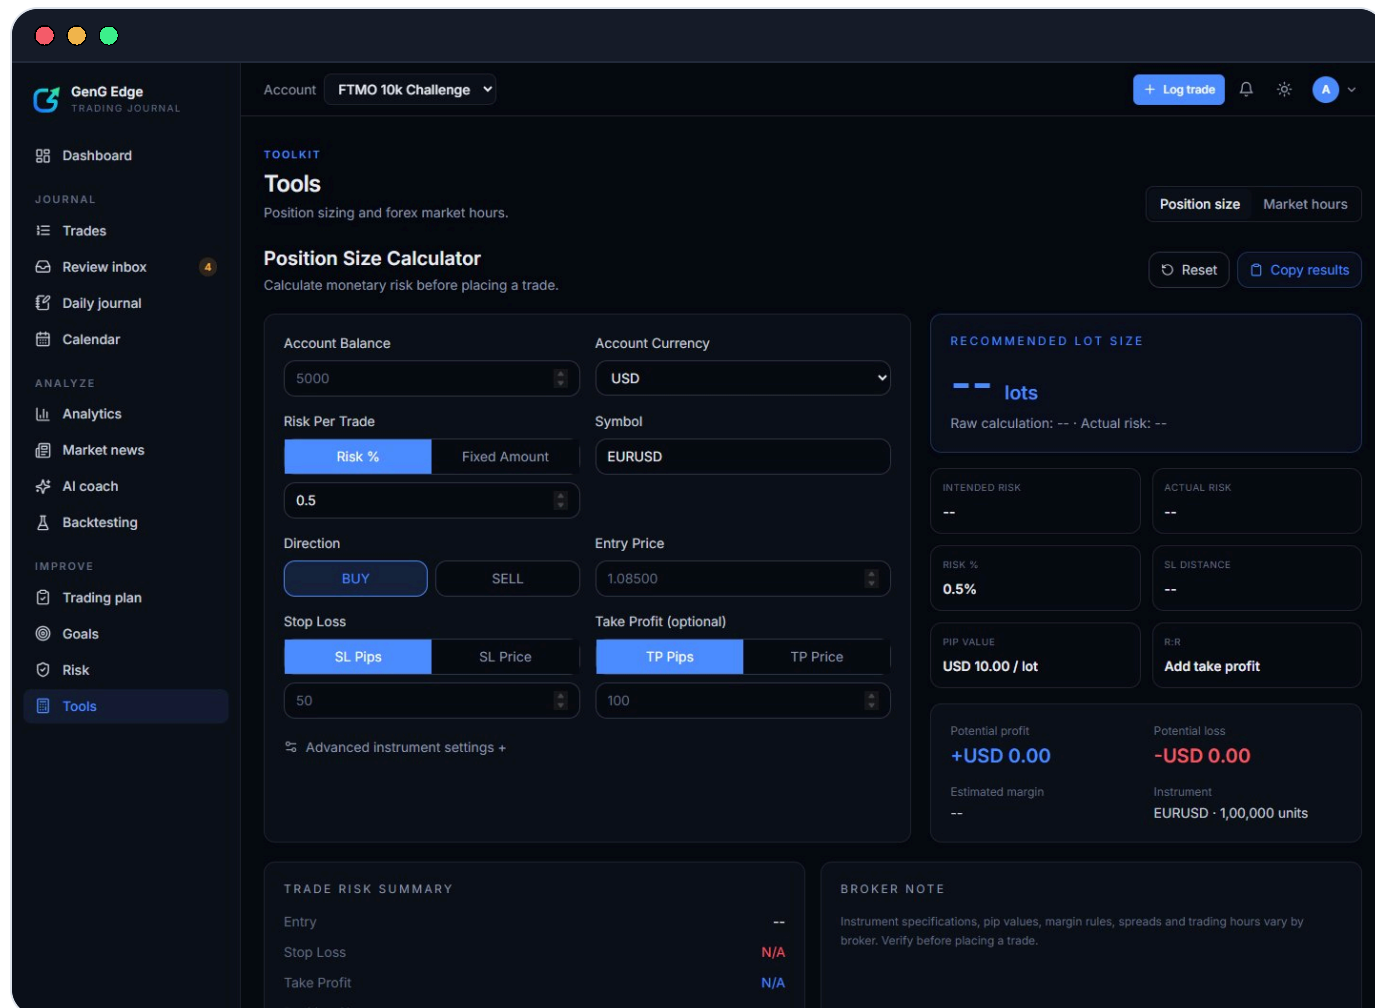

The bars turn orange when you've used 70% of a limit and red at 90%. You get a warning in the app, and on your phone or by email if you've turned that on.

- **Daily loss limit:** the most you can lose in one day.
- **Max drawdown:** the most your account can fall in total.
- **Profit target:** the profit you're aiming for (for example, to pass a challenge).
- You can also set the risk per trade and the most trades per day.

Settings, tools and the phone app

Everything else you might need.

Tools (free): a **position size calculator** that tells you how many lots to trade for the risk you choose, and **market hours** that show when Sydney, Tokyo, London and New York are open.

WHERE	WHAT YOU CAN DO THERE
Settings → Accounts	Add or rename trading accounts. Free: one account. Premium: as many as you like.

- **Auto-renew:** leave it on to renew by itself, or switch it off to pay once. We remind you a week before. Turning it off keeps the time you've paid for.
- **Invite friends:** when a friend you invited buys a plan, you both get a free month.
- **Refunds:** ask within 7 days of your first payment.

Trading words, explained simply

New to some of these? Here's what they mean.

P&L	Profit and loss: how much money a trade made or lost, after costs.
Pip	The usual smallest price step. For EURUSD it's 0.0001; for USDJPY it's 0.01.
Lot	The size of a trade. 1 lot of EURUSD is 100,000 euros; 0.10 lots is a tenth of that.
Stop loss	The price where you get out if the trade goes against you, so a loss stays small.
Take profit	The price where you take your profit.
Risk	The money you'd lose if your stop loss is hit.
R	Your result counted in "risks". Risk \$100 and make \$250: that's +2.5R. Lose the \$100: that's -1R.
Risk : reward	What you aim to make compared with what you risk. 1 : 2 means you aim to make twice what you risk.
Win rate	The share of your trades that made money.
Payoff	Your average win divided by your average loss. Above 1 means your wins are bigger than your losses.
Profit factor	All the money you won divided by all the money you lost. Above 1 means you're making money overall.
Expectancy	What you make, on average, on each trade.
Drawdown	How far your account has fallen from its highest point.
Session	The part of the day by market: Asian, London or New York.
Prop firm challenge	A test from a funding company (like FTMO) where you trade their money and must stay within strict loss limits.

MetaTrader 5 (MT5)	The trading app many brokers use.
EA	Expert Advisor: a small add-on for MT5. GenG Edge's EA only reads your closed trades.
Backtesting	Testing a trading idea on past prices before using real money.
Process grade	A score from A to F for how well you followed good habits on a trade, win or lose.

Something not working?

Quick fixes for the most common questions.

IF YOU SEE...	TRY THIS
A $\approx$ sign before the profit	The pair needs an exchange rate. Edit the trade and add the rate at exit.
MT5 says the connection is blocked	Add the address from Settings → Broker sync in MT5 under Tools → Options → Expert Advisors, then drag the EA onto the chart again.
Trades from MT5 aren't arriving	Check the <i>Algo Trading</i> button is on, the chart corner says <i>Connected</i> , and your Premium is active.
No phone notifications	Turn them on again in Settings → Alerts, and allow notifications for GenG Edge in your phone's settings.
A "Premium feature" message	Your free trial or plan has ended. Choose a plan; nothing you saved is lost.
No email from us	Check your spam folder, then press <i>Resend link</i> .
You were signed out	Your password was changed, or someone pressed "sign out of all devices". Just sign in again.

STILL STUCK? Press your picture (top right) → **Send feedback**. It comes straight to our team.

GenG Edge helps you learn from your own trading. It doesn't give trading advice or signals. Trading forex carries a high risk of losing money.

The screenshots show a demo account with sample trades. Your screens will show your own accounts and numbers.
